

Banner Stand Selection Guide

WHICH DISPLAY IS RIGHT FOR YOUR NEED?

Our wide selection of banner stands and displays is sure to fit your need, below are the two major types of banner stands and their recommended applications. Some types have multiple features (ex. double sided retractable). If you have further questions feel free to email us.

RETRACTABLE BANNER DISPLAYS

Retractable systems' recoil mechanism speeds set up and dismantle, graphics are also protected during shipping because they are stored inside the housing of the base. Can be used as full size or tabletop. Available in widths up to 60" wide and double sided. These flexible, lightweight units are easy to transport. Some models feature telescopic height for ultimate versatility.

NAME	GRAPHIC SIZE	DESIGN FEATURE	WEIGHT	RECOMMENDED USE *
Media	31.5" x 78"	adhesive rail, bungee pole	9	light duty, tradeshow & retail
Pacifica	31.5" x 84"	compact profile, bungee pole	11	medium duty, tradeshow & retail

Rollup	33.4"x 84.6"	single or double sided, bungee pole	11	heavy duty, tradeshow & retail

NON-RETRACTABLE BANNER DISPLAYS

Rigid and tensioned pole units are attractive and simple to use. Ideal for tradeshow displays and point of purchase in retail environments. Great for heavy-duty applications. Larger size stands accommodate banners up to 8' wide. Stands with telescoping support poles offer adjustable banner heights for 36"-96".

NAME	GRAPHIC SIZE	DESIGN FEATURE	WEIGHT	RECOMMENDED USE *
